

Nebraska Nurse Preceptor Survey

In 2023, MCIRN conducted a survey of preceptors of nurses across Nebraska to describe factors that help or hurt their ability to train new nurses, and determine what preceptors need to feel prepared and supported.

Other responses included reduced tuition (24%), free continuing education (33%), license/certification (30%)

Nebraska Nurse Preceptor Landscape

Nurses were asked to describe one issue that if fixed would improve preceptor experience. Top responses include:

Nurse Preceptor Preparation

Preceptors/clinical instructors need clarity on:

Sources:

MCIRN conducted a regional survey (NE, KS, IA, and MO). Data is pulled from the Nebraska respondents. For more information, go to our website, www.mcirn.com or email mcirn@unmc.edu

MCIRN is a project supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$3,995,519 with 0 percentage financed with non-governmental sources.
